Conference

2027

Luboš Kocman

Time for a change

What I'd like to keep

Z-Bau gave us a place to come together as a community. We had team meetings, activities, networking, BBQ, and plenty of time to relax and catch up with friends.

Those are the things I'd like to preserve in the new venue. The location may change, but the community atmosphere should remain the same.

What I want to change

Reverse the attendance decline and return to 300+ attendees. Team up with universities. Repeat the success of 2012 and 2018.

Engage the university, local communities, and user groups. Invite partners.

Organize more workshops and hands-ons

Improve media outreach before the event.

Move to early June to avoid high temperatures and the vacation season.

What I want to change

It's amazing that we had Grommunio both.
We hope to see them and many, many more
next year as well!

Let's Team up with local communities build
better relationships. Let's do 10+ booths.

OpenSSL, Grommunio, Weblate,
MobileLinuxCzech, openSUSE shop,
University's RISC-V work in OBS, any many
more!

Audio & Video by AVC Silicon Hill Prague

InstallFest2026-proven AVC team at the same venue earlier this year.

Allows Marco, Eli, Nico, Hody, and other volunteers to participate in the conference instead of running audiovisual equipment. (Those who really insist can still support AVC team)
